United States**

CAPABILITIES

BP Fabrication LLC provides seamless welding and fabrication services tailored to plant, structural, and specialty project requirements. Services include custom plant fabrication such as handrails, catwalks, tie-offs, drum rebuilds, and mechanical modifications that support production efficiency. Structural fabrication covers support steelwork, framework, and load-bearing assemblies for facilities and equipment. Pipe welding services include fitting, joint preparation, and certified weld execution for piping systems in industrial and commercial environments. BP Fabrication LLC also delivers custom fencing and gate solutions that balance security, durability, and aesthetic objectives. Work is performed with a focus on precision, safety, and adherence to client specifications, ensuring durable outcomes that support long-term performance.

CORE COMPETENCIES

- Plant Fabrication Services
- Structural Steel Fabrication and Welding
- Pipe Welding and Fitting Services
- Custom Fencing and Gate Fabrication
- Handrails, Catwalks, and Access Structures
- Drum Rebuilds and Mechanical Modifications
- On-Site Welding Support and Installation
- Tailored Fabrication Solutions for Commercial and Industrial Needs

DIFFERENTIATORS

BP Fabrication LLC brings more than 25 years of direct fabrication and welding experience, supporting both simple and complex metalwork requirements. The firm integrates a culture of craftsmanship, safety, and collaborative problem solving into every scope, ensuring that metal solutions are durable, reliable, and aligned with operational demands. BP Fabrication LLC delivers personalized service with a focus on client communication, engineered outcomes, and on-time execution that minimizes downtime and supports facility performance.
